

A Design of a Modular Gphs-Stirling Power System for a Lunar Habitation Module

Filesize: 4.34 MB

Reviews

The publication is easy in read through preferable to fully grasp. It is writter in simple phrases instead of hard to understand. You will not sense monotony at at any moment of your respective time (that's what catalogs are for concerning if you request me).

(Kevin Bergstrom Sr.)

A DESIGN OF A MODULAR GPHS-STIRLING POWER SYSTEM FOR A LUNAR HABITATION MODULE

To get **A Design of a Modular Gphs-Stirling Power System for a Lunar Habitation Module** eBook, remember to access the button beneath and download the ebook or have access to other information which are related to **A DESIGN OF A MODULAR GPHS-STIRLING POWER SYSTEM FOR A LUNAR HABITATION MODULE** book.

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 24 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. Lunar habitation modules need electricity and potentially heat to operate. Because of the low amounts of radiation emitted by General Purpose Heat Source (GPHS) modules, power plants incorporating these as heat sources could be placed in close proximity to habitation modules. A design concept is discussed for a high efficiency power plant based on a GPHS assembly integrated with a Stirling convertor. This system could provide both electrical power and heat, if required, for a lunar habitation module. The conceptual GPHS Stirling system is modular in nature and made up of a basic 5.5 KWe Stirling convertor GPHS module assembly, convertor controller PMAD electronics, waste heat radiators, and associated thermal insulation. For the specific lunar application under investigation eight modules are employed to deliver 40 KWe to the habitation module. This design looks at three levels of Stirling convertor technology and addresses the issues of integrating the Stirling convertors with the GPHS heat sources assembly using proven technology whenever possible. In addition, issues related to the high-temperature heat transport system, power management, convertor control, vibration isolation, and potential system packaging configurations to ensure safe operation during all phases of deployment will be discussed. This item ships from La Vergne, TN. Paperback.
