LEONARDO DA VINCI AND HIS CIRCLE

British Museum Press. Hardback. Book Condition: new. BRAND NEW, Leonardo da Vinci and His Circle, Claire Van Cleave, The brilliance of Leonardo da Vinci (1452-1519) was unprecedented in his own lifetime and has never been exceeded. The universality of his genius is extraordinary: he was a painter, sculptor, musician, architect, engineer, inventor, scientist, anatomist and mathematician. Even today he is rarely out of the news, and fascination with this Renaissance master and his work has never been greater. Leonardo famously left behind only a very small number of completed projects, but his surviving drawings, sketches and notebooks give an extraordinary insight into the workings of his mind and the enormous scope of his interests. Through drawing Leonardo attempted to record and understand the world around him, transmitting knowledge more accurately and concisely with images than would be possible with words. Beginning with an introduction to the life of the artist, this beautifully illustrated gift book presents a chronological selection of priceless drawings by Leonardo along with other beautiful works thought to be by his students and other members of his circle. These demonstrate his astonishing mastery of technique and how he communicated this to the artists who followed him. Leonardo's working methods and his wide range of interests are also explored, leading credence to the notion that the true nature of Leonardo's intentions can only be known through his remarkable drawings.
