Greenwood. No binding. Book Condition: New. Textbook Binding. 264 pages. Dimensions: 9.6in. x 6.5in. x 1.1in. Most historical studies bury us in wars and politics, paying scant attention to the everyday effects of pop culture. Welcome to America's other history: the arts, activities, common items, and popular opinions that profoundly impacted our national way of life. At the birth of the nation, when America's statesmen were laying the foundations of a new government, citizens were forging a popular culture to call their own. Patriotic symbols like the eagle and the profile of George Washington symbolized the virtues of the young nation. People from all classes—farmers, merchants, and the educated wealthy—turned away from European culture and began to recognize America's own prodigies. Homes, furnitures, fashions, and pastimes sprang from the new climate and topography. The styles, hobbies, and entertainments would evolve into the uniquely American popular culture we recognize today. Early American artists such as Benjamin West, John Singleton Copley, and Charles Wilson Peale emerged along with original contributions to culture, including: The first novels for women The first American music, a unprecedented blend of religious hymns, African tribal music, and folk songs from the Middle Ages Ninepins and skittles, the forerunners of bowling Architecture incorporating the classical styles of Greece and Rome. A wealth of facts, information, and interesting sidelights not available elsewhere makes this a treasure trove for students and interested readers. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Textbook Binding.
