By United States Convention

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1889 Excerpt: .only a gentle heat for several hours, till the effervescence again stops, and then boiling. The sp. gr. is generally 1.390 instead of 1.405; the difference is due to the loss occasioned by adding the solution to the nitric acid in a porcelain capsule instead of in a flask (A. 84, 388. O. 84, 111). Rother oxidizes with chlorate of barium, eliminating the excess of baryta with a slight excess of sulphuric acid (A. 84, 411. O. 85, 75) England states, that with the present directions we do not get rid of the excess of nitric acid. He is not in favor of Rother s chlorate of potassium or barium process, because of the liability of explosion of the chloric acid; he prefers free chlorine. Weise uses a current of free chlorine from a cold mixture of binocide of manganese and hydrochloric acid; being slowly evolved,...
